Personal Bio and Interests:

I grew up on the island of Nantucket. My family owns and operates a very successful landscaping company there. After my surgical training in 2007, my family and I moved to New Hampshire to start my career at the Orthopedic Center. We have remained here ever since. I am the proud mom of two sons, Dylan and Nate. In 2022 I was remarried to a fantastic man named Bobby. We love to hike and ski the White Mountains (at least I love to ski them!). We travel to his home state of Florida to enjoy the sunshine and ocean, and play tennis, pickleball and golf whenever possible. We also run the bike trails nearby with our spoiled dogs daily; no matter the weather. I love to watch all sports and listen to sports radio daily on my way to and from work.
